

ENVIRONMENTAL POLICY

ADOPTED BY:

President
2 October 2009

SUPERSEDES:

New

PREPARED BY: Environmental & Safety Officer

DATE: 2 October, 2009

TITLE: Environmental Policy

Policy Statement:

EcoLogic Spray Foam Insulation, through its planning, decision-making processes, and leadership, will promote the development of an environmentally sustainable community that functions in harmony with the natural environment.

EcoLogic Spray Foam Insulation will exercise environmental stewardship of its operations, products and services, based on its commitment to: (a) using the most Environmentally friendly products available, (b) prevent pollution, (c) continually improve its environmental performance by setting and reviewing environmental objectives and targets, and (d) meet or exceed applicable environmental legal requirements and other requirements to which it subscribes.

The purpose of this policy is to state EcoLogic Spray Foams commitment to environmental sustainability in accordance with the following guiding principles:

- **Quality Of Life:** A healthy, sustainable environment is an essential requirement for high quality of life – both today and in the future.
- **Shared Responsibility:** The protection and preservation of Canada’s natural environment is a responsibility shared by local and regional EcoLogic branches, employees, managers and clients. Collaboration, co-operation, and partnerships are needed to exercise this responsibility effectively.
- **Decision-Making Model:** Environmental considerations will be factored into business decisions made by the EcoLogic Spray Foam Insulation.
- **Protection of the Natural Environment:** EcoLogic Spray Foam Insulation will take a leadership role in protecting natural heritage and biodiversity within each municipality and region.
- **Intergenerational Equality:** EcoLogic Spray Foam Insulation strives to understand and minimize the negative environmental impacts its operations may have on future generations.
- **Public Awareness and Understanding:** EcoLogic Spray Foam Insulation will take a leadership role in increasing public awareness of environmental issues and the actions Canadians can take.
- **Client Participatory Decision Making:** Clients and stakeholders must have the opportunity to participate in the decision-making process and be empowered to develop specific environmental plans.
